Curatorial Thinking

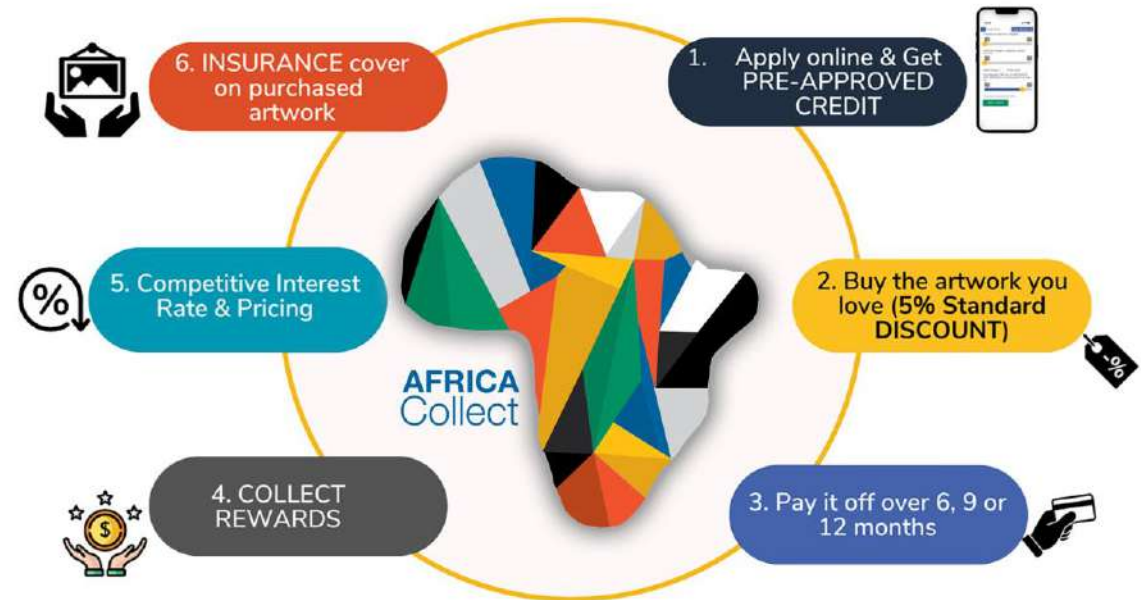

The term salon refers to the gatherings of intellectuals, artists, and creatives, where ideas and art are exchanged in intimate, collective settings. Historically salons were spaces of dialogue and innovation, fostering cultural connections and the free exchange of creative thought. Vanguard, on the other hand, refers to the avant-garde movements of the 19th and 20th centuries, which challenged and pushed the boundaries of artistic expression. Salon Vanguard draws on this rich history, positioning itself within a long tradition of creativity and innovation.

This exhibition brings together a diverse group of artists whose work reflects the ongoing evolution of contemporary art. Serving as a fundraiser, Salon Vanguard showcases a range of creative practices that contribute to the dynamic landscape of art today.

In this era of expansive artistic expression, artists continue to push boundaries, connecting their work to both the world around us and the worlds they create. Salon Vanguard celebrates art's power to challenge perceptions, inspire dialogue, and deepen our understanding of both external and imagined realms.

The META foundation is excited to announce that it has become an Africa Collect partner allowing our art buyers to purchase work and pay it off. For more information visit their website or email the META foundation.
